

IRM Energy signs pact with GAIL, IAV Biogas

TIMES NEWS NETWORK

Ahmedabad: IRM Energy Limited on Monday announced its collaboration with GAIL (India) Limited and IAV Biogas Pvt Ltd to promote Compressed Bio Gas (CBG) in Tamil Nadu's Namakkal and Tiruchirappalli districts.

The tripartite agreement, recently signed under the CBG-CGD Synchronisation Scheme, enables IRM to off-take up to 3000 SCMD of CBG for its City Gas Distribution (CGD) network.

“This collaboration brings sustainable fuel to the forefront,” said MK Sharma, CEO, IRM Energy.

The move supports the SATAT scheme and India's Net-Zero goals by converting agri-waste into clean energy.
