

GAIL, CONCOR ink pact for LNG use for logistics fleet

GAIL (India) and Container Corporation of India have signed an MoU to assess the feasibility of using Liquefied Natural Gas (LNG) as fuel for CONCOR's logistics fleet. The collaboration seeks to harness LNG's advantages as a cleaner and more cost-effective alternative to diesel, which could result in reduced emissions and lower operational costs, GAIL said post signing of the MoU in the presence of Director (Marketing) Sanjay Kumar and CONCOR CMD Sanjay Swarup.
