

Deepak Gupta appointed GAIL Chairman & MD

OUR CORRESPONDENT

NEW DELHI: GAIL (India) Ltd on Sunday announced that Deepak Gupta assumed office as its Chairman and Managing Director. Gupta, a mechanical engineer from Delhi College of Engineering, has more than three decades of extensive experience in various areas of the oil and gas industry value chain.

Gupta joined GAIL as Director Projects in February 2022 and has been overseeing various significant infrastructure and clean energy initiatives of GAIL.

These initiatives include the execution of natural gas and LPG pipeline projects, gas processing units, supervisory control and data acquisition systems, and green energy initiatives in alignment with GAIL's net-zero aspirations.

Deepak Gupta, Chairman and MD, GAIL (India) Limited

He was also overseeing the operations and maintenance of GAIL's vast pipeline network of more than 20,000 km of natural gas and LPG pipelines, compressor stations, and processing units. Deepak Gupta's experience spans diverse areas such as project and construction management, global

procurement, technology selection, business development, and operations and maintenance. Gupta's appointment as Director Projects was announced in February 2022 by GAIL's Board of Directors.

During his tenure as the Director (Projects), Gupta was also responsible for the Dabhol Breakwater Project for Konkan LNG Limited, a subsidiary of GAIL, that has ensured the LNG terminal is operational under all weather conditions.

Gupta has also held various directorships in joint ventures and group companies, including being the chairman of Talcher Fertilisers Limited, director of ONGC Petro-additions Limited, South East Asia Gas Pipeline Company Limited, and earlier heading Green Gas Limited and Maharashtra Natural Gas Limited.

Before being appointed as the director on the GAIL board, Gupta was part of the management team of Engineers India Limited for more than three decades, during which he was responsible for various prestigious energy sector projects, including the Dangote refinery and petrochemical complex in Nigeria, the HMEL petrochemical complex in Bathinda, the petrochemical expansion project of GAIL at Pata, as well as the first-ever greenfield refinery project in Mongolia, contributing to India's overseas energy engagements.

Gupta has also achieved recognition for his various publications, as he has written numerous articles on the subject of projects, digitisation, and processes, many of which have become part of the energy sector's best practices.

■ New Delhi

Deepak Gupta, a seasoned energy sector executive, on Sunday assumed charge as chairman and managing director of GAIL (India) Limited, India's largest gas transmission and marketing company.

A mechanical engineer from Delhi College of Engineering, Gupta holds extensive experience in natural gas transmission, marketing and infrastructure development and held key leadership roles at GAIL across operations, business development and corporate management before this, according to a company statement.

"He brings a comprehensive blend of technical, strategic and board-level leadership. His expertise spans project and construction management, contracts and global procurement, technology selection, business development, operations and maintenance," it said. Gupta, who replaces Sandeep Kumar Gupta, superannuated on February 28, joined GAIL as Director (Projects) in February 2022. He will have a tenure up to February 28, 2029.

"Under his leadership, GAIL completed the Dabhol breakwater project of Konkan LNG (subsidiary of GAIL), enabling all-weather operations," it said. "He has pioneered many digital transformation initiatives, enhancing operational agility & transparency in business areas."

During his career spanning 32 years at Engineers India Limited previously, he led many large cross-functional teams to execute landmark projects under complex and challenging conditions, such as the world's

largest single-train Dangote Refinery & Petrochemical Complex in Nigeria, HMEI's mega petrochemical complex at Bathinda, GAIL's petrochemical expansion at Pata.

He also led the first greenfield refinery project in Mongolia, contributing significantly to India's global energy diplomacy.

"A thought leader and prolific writer, Gupta, has authored several technical papers/articles on critical packages and fast-tracking project execution. His ideas on project acceleration, digitisation and excellence have been institutionalised as best practices," the statement added.

Mahanagar Gas (₹1219.40): **BUY**

Akhil Nallamuthu

bl. research bureau

The stock of Mahanagar Gas Ltd (MGL) has been rallying since early February. It established the uptrend after finding support at ₹1,020. Last week, the scrip gained 7.6 per cent and breached the neckline of an inverted head and shoulder chart set up at ₹1,185. This is a strong indication that the trend has turned bullish.

The gain has also come with good momentum, showing notable buying interest. As per the chart pattern, the stock is likely to appreciate to ₹1,330 in the near term. Therefore, traders can buy the stock now at ₹1,219 and add longs at ₹1,185.

Place stop-loss at ₹1,125. When the price hits ₹1,275, raise the stop-loss to ₹1,225. Tighten the stop-loss to ₹1,275 when the stock reaches ₹1,300. Book profits at ₹1,330.
