

Activities to be carried out by CGD entity

1. F-8 form including technical details for the connectivity to be filled by the CGD entity and uploaded while raising the request for hooking-up connectivity.
2. GAIL ZO would provide a list of all the potential tap-off details (including co-ordinates) from where the CGD hooking-up connectivity could be provided to the CGD entity.
3. The CGD entity must confirm that they have finalized the land for their CGS, including providing its coordinates. They should also submit the land sale/purchase agreement or registration documents. The land should be at least 25 meters x 30 meters in size for Standard metering skid (13000 SCMH), meet design requirements, and be free from all encumbrances. It should be located either next to GAIL's SV/IP station or, preferably, within a 500-meter radius. The CGD entity is responsible for acquiring this land at their own cost for setting up the Hooking-Up facility.
4. Based on CGD entity's confirmation of its CGS land, CGD entity to facilitate GAIL Zonal Office for a joint site visit.
5. CGD entity has to sign Hooking-up Agreement and remit the upfront payment as shall be conveyed by GAIL
6. The land acquired by the CGD entity shall be developed and handed over to GAIL to construct & install the "Hooking-Up Facility". The CGD Entity shall share a copy of the Soil Investigation Report comprising of topography survey, Geo-technical survey, required soil data and other parameters of the proposed land, required to design the foundation and structures for the creation of the Hooking-Up facility by GAIL PMC. The site activities shall be started after the developed land with proper industrial-type gated boundary masonry wall conforming to the PNGRB T4S Guidelines shall be erected by the CGD Entity at its own cost and is handed over to GAIL. GAIL shall endeavour to complete the project execution and commissioning of the connectivity within 6 months from the date of land handover.
7. Post Commissioning of Hooking-up connectivity, CGD entity to remit OPEX @2.5% of hooking-up charges exclusive of taxes/GST with 5% escalation per annum plus applicable taxes.
